

Introduction

InterWealth Management, LLC is registered with the Securities and Exchange Commission (SEC) as a Registered Investment Adviser (RIA). We are an investment advisor and provide advisory accounts and services rather than brokerage accounts and services. It is important for you to understand these differences. Free and simple tools are available to research firms and financial professionals at www.investor.gov/CRS, which also provides educational materials about broker-dealers, investment advisers, and investing.

What Investment Services and Advice Can You Provide Me?

We offer investment management and advice to our clients on a non-discretionary basis. Client's assets are held in separately managed accounts. We monitor advisory accounts and give advice on a regular basis. We will discuss your investment goals and design a strategy to help you achieve them. If you enter into a non-discretionary investment advisory agreement you make the ultimate decision regarding the purchase or sale of investments. Our primary investment strategy focuses on diversification and age-appropriate asset allocation. For additional information on our services and clients please review our ADV2A Brochure: Items 4 & 7, which is available online at <https://adviserinfo.sec.gov/firm/brochure/155597>.

Questions to Ask Your Financial Professional:

- **Given my financial situation, should I choose an investment advisory service? Should I choose a brokerage service? Should I choose both types of services? Why or why not?**
- **How will you choose investments to recommend to me?**
- **What is your relevant experience, including licenses, education and other qualifications? What do those qualifications mean?**

What Fees Will I Pay?

If you open an advisory account, you will pay an on-going asset-based fee for our services. You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. The advisory fee you pay may vary based upon the type of account, services being provided, and size of the account. You will be charged asset-based (AUM) fees (up to 1.5% annually) on either a monthly or quarterly basis. Our fees are further described in our ADV2A Brochure: Item 5, which is available online at <https://adviserinfo.sec.gov/firm/brochure/155597>.

In addition to the fees described above, your account may also be charged transaction charges for purchases and/or sales of securities, custodial fees, or product level fees charged by the product company through the fund or product expenses. Mutual funds charge an annual management fee which varies depending on the fund. Information about product-level fees can be found in the applicable product prospectus.
